ATTACHMENT (A)

AMENDMENT "A" TO SPECIFICATION

PARAGRAPH 18 ON PAGE 6.

The bottom of the bin is closed in the lowered position and opens to discharge the contents onto the conveyor 12. In the present embodiment the lower end of the bin 15 is open and the bottom of the bin is formed by a shutter [[39]] 49 fixed to the side frames 21. The shutter [[39]] 49 is arcuate in shape being concentric to the rails 31 and lower side edges of the bin are also arcuate in shape so as to accommodate the shutter [[39]] 49.
